New collection 2024
Bathroom
Design **Piet Billekens**

Ampia collezione di rubinetteria in acciaio inox AISI316L che comprende miscelatori per lavabo (singolo, a due fori, alto, autoportante, a parete), bidet, vasca e sistema doccia.

Grazie a un innovativo meccanismo brevettato all'interno della maniglia, il miscelatore si apre e si chiude grazie al movimento verticale di una piccola asta che ruota su una sfera.

Il movimento orizzontale dell'asta controlla la temperatura dell'acqua.

In questo modo, la forma rigorosa e lineare del miscelatore rimane inalterata anche aprendolo.

Un piccolo e apparentemente semplice dettaglio rende questo miscelatore unico nella forma e nell'uso.

Finiture disponibili: acciaio spazzolato, lucido e colori PVD.

Extensive collection of AISI316L stainless steel taps including mixers for washbasin, bidet, bathtub, and shower system. Thanks to a groundbreaking patented mechanism inside the handle, the mixer is opened and closed through a smooth vertical movement of a small rod rotating on a sphere. The horizontal movement of the rod controls the temperature of the water. By this way, the rigorous and linear shape of the mixer remains unchanged, even by opening it. A small, apparently simple detail makes this mixer unique in shape and use. Available finishes: brushed, polished and PVD colours.

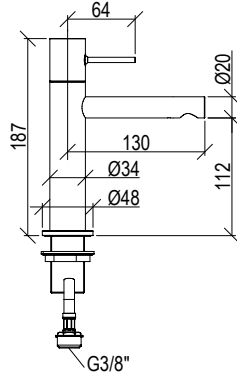

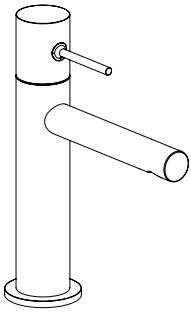

Il meccanismo di apertura / chiusura si basa su un sistema di leve a scomparsa che consente di aprire la cartuccia semplicemente muovendo l'asta e non l'intera impugnatura.

The opening / closing mechanism is based on a concealed system of levers. This system allows the cartridge to be opened simply by moving the rod and not the whole handle.

0511119X

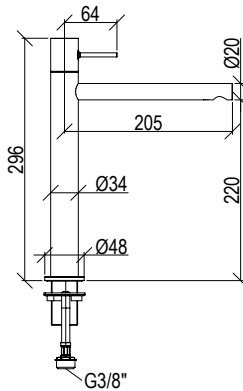

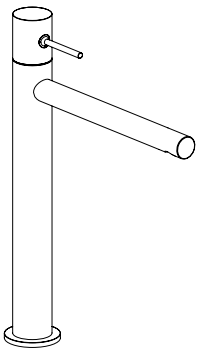

- Miscelatore lavabo Ø34mm inox 316L **S/SCARICO**
- Bocca l. 13cm con aeratore anticalcare M16x1
- Flessibili di collegamento G3/8"

- Washbasin mixer Ø34mm inox 316L **W/O WASTE**
- Spout l. 13cm with anti limestone aerator M16x1
- G3/8" inox flexible hoses
